# ICEWAVE

- For Localized and temporary pain reduction

## INSTRUCTIONS

Place one white and one tan patch on the body, using one of the locations shown. Apply the patches to clean, dry, undamaged skin. Patches may be worn for up to 12 hours before discarding. Keep well hydrated while using this product. Only remove half of the patch backing until an effective placement site had been located.

If the pain is not reduced in 10 seconds, move to the next location to relieve pain in that area. This can be used on any area of the body. For specific patch protocols, please visit [www.lifewave.com](http://www.lifewave.com).

The Clock/Cross Method was developed to provide fast and effective results for non-specific, localized musculoskeletal pain. Move through the locations shown in Fig. 1.0 to 1.6 until the pain has been substantially reduced and/or mobility has increased.
