

LIFEWAVE®

- ANTI-AGING
- PAIN RELIEF
- BETTER SLEEP
- IMPROVED ENERGY
- APPETITE CONTROL

Throughout my life, I've found we are limited only by the boundaries we place on what we believe is possible. LifeWave started as an idea I had to improve performance and health using the body's own communication system. Many believed this type of technology simply wasn't possible.

Eight years later, with more than 40 clinical studies and hundreds of thousands of customers in 90 countries, we know that it is. And while we know our products have helped people around the world in achieving often remarkable results, we are constantly pursuing new and better ways to improve health and promote anti-aging. There is no limit to what we believe is possible.

David Schmidt
LifeWave Founder & CEO

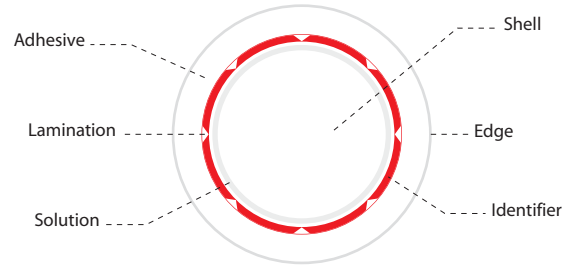

When I first met David Schmidt in 2006, he said he had a technology I could benefit from – a non-drug way to improve the functionality of the body. He set out to prove it to me through a strength test with Energy Enhancer patches. I was immediately hooked.

Since then, LifeWave patches have become an important part of my everyday life. I use IceWave to recover from a particularly tough workout, Silent Nights ensures a good night's sleep and Glutathione and Carnosine help protect my body from the toxins it encounters daily. Every day, I also meet others who can benefit from these products, which naturally strengthen our bodies. As LifeWave Ambassador, I am proud to spread the word about this brilliant technology!

Suzanne Somers
LifeWave Ambassador

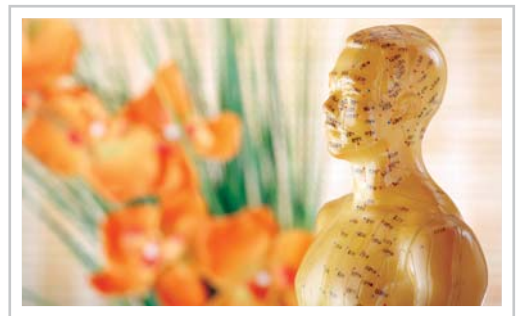

Breakthrough Technology

It's been known for thousands of years that specific frequencies of light cause specific changes in the body. When you go out in the sun, for example, a specific frequency of light will cause your body to produce Vitamin D. Another frequency of light (UV) will cause the production of melanin, the chemical that creates a sun tan.

Our exclusive, non-transdermal (nothing goes in the body) patches use this principle to gently stimulate acupuncture points, which have been used to balance and improve the flow of energy in the human body for thousands of years. The result is a natural way to improve the quality of your life.

What is Acupuncture?

Acupuncture is a healing therapy based on an ancient Chinese treatment system. A practitioner will typically stimulate acupuncture points on the body with needles to improve sleep, relieve pain and discomfort, and promote good health.

Introducing Energy Enhancer®

What if there was a way to increase your body's energy levels without having to take stimulants? Now you can with LifeWave. Our Energy Enhancer patches stimulate acupuncture points to naturally increase energy and stamina – bringing you focused and sustained energy as opposed to the spike and crash of stimulants.

Energy Enhancer® Benefits

- Sustained energy
- No harmful drugs or stimulants
- Convenient & easy to use
- Fast results

There's a reason top athletes around the world use Energy Enhancer to help them compete at their highest potential: it works. In fact, LifeWave studies show an increase in energy and strength endurance within minutes of use, and *an increase in fat burning of more than 20%*.

Introducing IceWave®

Imagine rapid and drug-free pain relief. It's here with LifeWave. According to acupuncture theory, pain is the result of an obstruction in the flow of energy in the body. The LifeWave technology re-balances this flow, helping ensure all systems in the body function properly, thereby starting the healing process from within.

IceWave® Benefits

- Safe & natural pain relief
- Can be used for whole body & local pain
- Convenient & easy to use
- Fast results

How do we know our IceWave patches are getting the job done? Clinical studies using an infrared camera showed IceWave creates an immediate cooling effect on the skin.

IceWave gets results – quickly and effectively!

Introducing Y-Age® Glutathione

What if you could tell your body to produce more of a powerful antioxidant that can protect you from the onslaught of toxins it encounters every day?

That master antioxidant is called glutathione and has been proven to provide a long list of health benefits.

Glutathione Benefits

- Improves overall health
- Supports the immune system
- Promotes the release of stored toxins
- Helps reduce the appearance of fine lines & wrinkles*

*When used in conjunction with Y-Age Aeon & Y-Age Carnosine on a regular basis.

Our glutathione levels decline with age, but LifeWave has an answer – without the need for powders, pills or drinks. The LifeWave Y-Age Glutathione patch increases blood glutathione levels in a safe and natural way. This is evidenced by a LifeWave study that shows a substantial and significant elevation in blood glutathione levels *in just one day*.

Introducing Y-Age® Carnosine

What if the answer to vibrant health and vitality could be found within our own bodies? That substance is called carnosine and clinical research on this remarkable anti-aging agent has produced some amazing and dramatic results. Here are just some of the benefits of carnosine:

Carnosine Benefits

- Improves overall health
- Improves bioelectrical properties of organs
- Convenient & easy to use
- Helps reduce the appearance of fine lines & wrinkles*

*When used in conjunction with Y-Age Aeon & Y-Age Glutathione on a regular basis.

While Carnosine is available in large quantities in the brain, muscles and other tissues, it does decline with age. Fortunately, results from a LifeWave study show that our Y-Age Carnosine patch has significant positive effects on the bioelectrical properties of the body. Compare this against common Carnosine pills, powders and drinks that can only elevate blood Carnosine levels by trivial amounts.

Introducing Silent Nights®

Imagine getting a restful night's sleep and waking up refreshed and energized. You can, with LifeWave. How important is sleep? Sleep not only helps you perform at your peak potential, but studies also show a strong link between sleep and health. Studies also show that sleeping patterns change with age; we get less nighttime sleep as we get older. But our *need* for sleep remains the same. The answer doesn't have to be in the form of a sleeping pill.

Silent Nights® Benefits

- Natural alternative for improving sleep
- No drugs or pills to take
- Convenient & easy to use
- Great for those who travel

Our Silent Nights patches are applied to acupuncture points that have been used to improve sleep for thousands of years – a safe and effective method to get the sleep you need!

Introducing SP6® Complete

Imagine a safe and effective way to control your appetite, without the use of harmful stimulants. It's here with LifeWave.

You don't have to succumb to afternoon or late-night cravings, you don't have to endure through hunger and you don't have to rely on stimulants!

SP6® Complete Benefits

- Helps control & regulate your appetite
- May help to reduce your cravings
- Convenient & easy to use
- Safe & natural

Our SP6 Complete patch utilizes ancient principles of acupuncture to gently stimulate points that have been used to balance and control appetite for thousands of years. The result is a natural reduction in hunger and food cravings.

LifeWave Research

Since the company's inception, LifeWave has been committed to building and continually improving upon a firm foundation of research. While this body of research provides solid scientific support for our products, it also goes well beyond that. Our studies inform our understanding of the technology's potential and lay the groundwork for innovation and product development. This type of product advancement can only come from quality research. That is why we are invested in ensuring our studies meet high scientific standards, using a variety of diagnostic and objective measures, in conjunction with subjective feedback.

LifeWave is built on the support and efforts of our distributors. We have committed a substantial amount of resources to advancing our products to their fullest potential so you can have confidence in their safety and efficacy.

The LifeWave Research Team

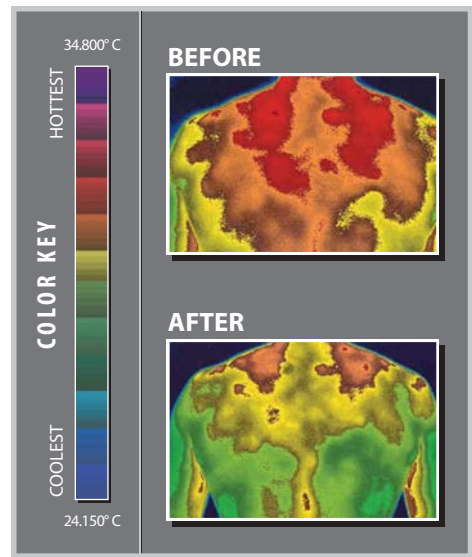

Our research program is one of our top priorities, and we can rest assured knowing this crucial piece of our business is in the capable hands of our top science and research experts.

Dr. Steven Haltiwanger, MD, CCN

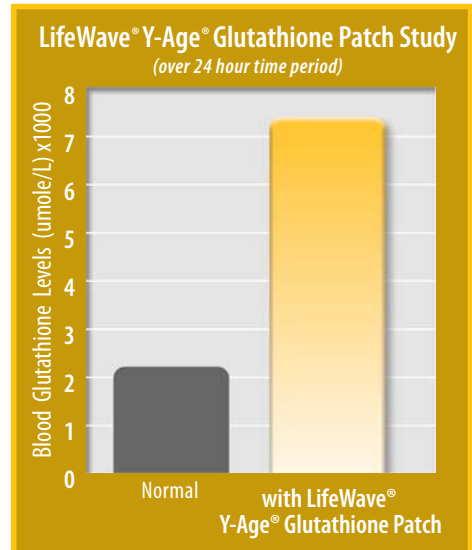

Dr. Steve Haltiwanger is a medical doctor and researcher with more than 30 years' medical and clinical experience. In his role as Health & Science Director, Dr. Haltiwanger leads LifeWave's global research initiatives. He is well known for his work in the areas of electromagnetic therapy and orthomolecular therapy, a form of alternative medicine which seeks to treat disease through nutritional supplementation. Dr. Haltiwanger's medical expertise is critical to new product formulation.

Dr. Dean Clark, D.C.

Dr. Dean Clark is an expert in Medical Infrared Imaging and his experience in this area is invaluable to LifeWave's research efforts. His extensive chiropractic clinical experience (which spans more than 25 years) affords him valuable insight into the practical applications of the LifeWave patches. In his chiropractic practice, Dr. Clark became particularly interested in the phenomenon of organ referred pain. He is continuing his study of the subject with a book that will tie his experience in organ referred pain and Medical Infrared Imaging.

"Infrared thermal imaging studies clearly show that the LifeWave IceWave patches have both immediate and local thermal effects on the skin." - Dr. Dean Clark, D.C.

Clinical studies show that when used regularly, the LifeWave Y-Age Glutathione patch is an effective way to increase glutathione levels when compared to baseline results. Our patch technology makes elevating glutathione levels convenient, effective and safe.

LIFEWAVE®

One of the tools I use to detox is the LifeWave Y-Age Glutathione patch. It helps boost the body's natural antioxidant levels to combat the toxic burden. This is what can change the course of the world.

– Suzanne Somers, Author, Actress, LifeWave Ambassador

Since I have been using LifeWave patches I have felt so much better. I have more energy. I can live almost pain free for the first time in 10 years. Thank you LifeWave.

*– Simona Lee**

*I am much, much healthier than before! I will be 80-years-young on November 22. This is going to be my legacy – helping people to be healthier without any side-effects, relieving their pain rapidly without chemicals!!! May the rest of your life be the best of your life starting NOW! – Remedios Z. Riborozo (Remy)**

*LifeWave is the first thing in 42 years that has been able to stop the pain without a narcotic. – Don Collins**

*Personally I think it is the greatest medical innovation that I've experienced so far. – Karen Kan, MD**
