

# LIFEWAVE X39™

## PRODUCT VIDEO SCRIPT

We highly recommend you see our X39™ video, but if you can't, or just wanted to see the script, this is it!

We all hope to age gracefully so we can enjoy our later years full of energy, vitality and good health. But so often, with age, our bodies start to show signs that things just aren't as they used to be. Our energy... skin... healing and recovery time... sleep... it all just seems to go downhill. Unless you're using LifeWave!

Since 2004, LifeWave has been delivering its amazing life-enhancing technology to people across the world, always helping the body do what it was designed to do, only better. And as it turns out... the best was yet to come! David Schmidt, our founder, creative force and world class inventor behind LifeWave technology, has recently achieved something in the field of regenerative science, with a single LifeWave patch, that researchers worldwide, spending years and billions of dollars... could not.

Introducing LifeWave X39™... The world's first product ever to activate stem cells. A true breakthrough in regenerative science that helps restore our bodies to a healthier, more youthful state, in a way no other product can. The secret? By harnessing the power of LifeWave's patented phototherapy, X39™ uses light to elevate a copper peptide, GHK-Cu, proven to signal the activation of stem cells.

Think about it. These are the cells that generate and regenerate all the cells and structures of the human body. They're the building blocks for our organs, tissues, blood and immune system. They also serve as an internal repair system... everywhere. But as we age, stem cells become less effective, their ability to repair damaged tissue is reduced, they just can't keep up with what they were designed to do. In fact by age 60, they've slowed dramatically. But all that changes when just one LifeWave X39™ Patch is placed anywhere on the body each day.

Instead of older and less effective stem cells, X39™ supports the production of younger and healthier stem cells. This amazing level of control over your vitality and well-being was simply not possible, let alone this easy, until now. And the best part? Like all LifeWave patches, X39™ is safe, non-invasive and incredibly cost-effective. Backed by clinical studies, multiple patents and 20 years of development, X39 is so effective, it can influence everything about your body - how you look, feel, perform and heal.

It's time you experienced the power of X39™. If you'd been positioned on the inside when global brands like Apple, Uber, Amazon and others started growing rapidly, you'd be on top of the world today! Now it's your turn. When it comes to regenerative, anti-aging science, stem cells are the future. And you, thanks to LifeWave, are at the forefront of it all.

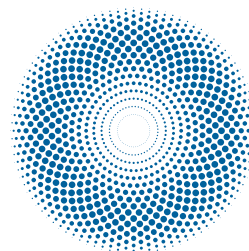

Don't miss out. The LifeWave X39™ patch is an absolute breakthrough for your body and your business. It puts you on the threshold of explosive growth in your business like no other product ever could. And all you need to do is try it, share it with others and help us grow our global sales team ever bigger by sharing the LifeWave opportunity.

Now's the time. Live Long. Live well. Live Younger... Today!

If you are just learning of LifeWave products and X39™ in particular, contact the person who shared this with you and he or she will be happy to tell you how to get the lowest prices on X39™ and all of our products. Also, our global team is expanding fast and we can always use help spreading the word! Don't miss this chance to learn how you can earn significant income for referring customers and helping us bring on new team members.

The time is now! Join us... and share and feel the power of LifeWave!
